Thousands Have Kidney Trouble NEWS IN BRIEF.

Famine in Western India. The American board of commissioners for foreign missions has received from Rev. Dr. R. A. Hume at Ahmednagar, India, a letter saying the present famine in western India is sure to be far more distressing

than even the awful famine of two years ago, as a severe drouth already has begun in the Ahmednagar district and no rain can be expected until the middle of June. The writer says that Ahmednagar has suffered also very badly from the plague and is not yet free from it. Sholapur is now in a severe epidemic, and Bombay is, per-baps, in the beginning of another plague experience. In view of it all, says the correspondent, the government, as always, is acting most nobly, but official relief never can meet the multitude of necessities.

Fast Skating.

The fastest skating ever done in the world for half-mile and a quarter-mile, straightaway, was accomplished Thursday, on Lake Minnetonka, near Minneapolis. Norval Baptie of Bathgate, N. D., lowered necessity of being compelled to go often on Lake Minnetonka, near Minneapolis during the day, and to get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon made by John S. Johnson, to 28 1-5s. After a rest of 30 minutes, Bantis started for ter a rest of 20 minutes, Baptie started for the half-mile record of Joe Donoghue of New York and Olaf Rudd of Minneapolis, and lowered it from 1m 5 2.5s to 1m 2-5s. The records are official and were made under the auspices of the Excelsior Ice Yacht club.

> Four Men Killed by Wood Alcohol. Four men died in Melrose, Mass., last week from the effects of drinking a concoction of warm water, cider, wood alcohol and sugar. The wood alcohol was stolen

rom a caterer by Ed. McLaughlin, 24, a driver in his employ, and the mixture was compounded by W. F. Dixon, a colored teamster. These two men died, and the other two victims were Michael Flannery, 88, and Richard Wood, 28, the two latter being married. Five other men, who drank the mixture, were in a serious dition for a time, but recovered

British Seize a German Steamer.

The German steamer Bundesrath, beonging to the German East African line, has been captured by the British cruiser Magicienne in North Delagoa bay as a prize, and taken to Durban. It is learned that there were three German officers and 20 men, attired in khaki and intending to serve the Boers, on board the Bundesrath, which explains her capture. The capture of the Bundesrath has increased the al-ready strong anti-British feeling of the Hollander and German section of the popu-lation in Lorenzo, Marquez.

Cutting Bates to the West.

The action of the Fitchburg railroad is rying to maintain its differential which was wiped out by the cutting of the stan-dard rate over the Boston & Albany and its western connections is seriously threatening the passenger situation in the West The rival lines out of Boston are now quoting a tourist rate of \$50.50 to California points, which is the lowest figure yet reached. The lowest regular rate in effect from Chicago to the Pacific coast is \$52.85.

The worst blizzard in years raged in northwestern Pennsylvania Friday and Friday night. Eighteen inches of snow ell and many villages were cut off from he outside world.

The immense wall paper factory of William Campbell on East 24th street, New York city, was destroyed by fire Friday evening. The loss is fully \$500,000. The Campbell company employed 400 hands.

Fire destroyed the seven-story building at 220 and 222 Monroe street, Chicago, Saturday morning, and damaged the adjoining five and seven story structures. The total loss s \$1,000,000. Nine firemen were injured, two seriously.

The fight of the Fitchburg railroad people against the Boston & Albany lease will be one of the leading issues before the legbe one of the leading issues before the leg-islature the coming season. The contest has been carefully planned by the Fitch-burg interests who are confident they can show the legislature it would be a most unfortunate thing for Massachusetts to allow foreign corporations to enter in the man-ner proposed on account of the injury to monwealth as represented by \$5, 000,000 Fitchburg common stock now held in the state treasury.

ASK YOUR DOCTOR!

Ask your physician this question, "What is the one great remedy for consumption?" He will answer, "Cod-liver oil." Nine out of ten will answer the same way.

Yet when persons have consumption they loathe all fatty foods, yet fat is necessary for their recovery and they cannot take plain cod-liver oil. The plain oil disturbs the stomach and takes away the appetite. The disagreeable fishy odor and taste make it almost unendurable. What is to be done?

This question was answered when we first made

SCOTT'S **EMULSION**

of Cod-Liver Oil with Hypophosphites. Although that was nearly twenty-five years ago, yet it stands alone today the one great remedy for all affections of the throat and lungs.

The bad taste and odor have been taken away, the oil itself has been partly digested, and the most sensitive stomach objects to it rarely. Not one in ten can take and digest the plain oil. Nine out of ten can take SCOTT'S EMULSION and digest it. That's why it cures so many cases of early consumption. Even in advanced cases it brings comfort and greatly prolongs life.

Edwin R. Snow, charged with the mur-der of James T. Whittemore in Yarmouth, Mass., last October, was arraigned at Barnstable Monday. He retracted his pre-vious plea of not guilty and pleaded guilty. He was sentenced to be executed on March Snow's victim was shot through the nead early in the morning while driving a baker's wagon. Snow is the first man to be sentenced in Massachusetts to die by electricity

Thieves broke into the house of George Selson of Castle Hill, Whitingsville, Mass Monday morning, and stole a safe contain ing \$2200, after which they set fire to the dwelling to cover their crime. Mr. Nelson got up early to go to the barn only a short distance from the house. On his return he found his desk ransacked, everything in confusion and the house on fire There is no clew to the perpetrators of the The whole affair is involved mystery.

NEW HAMPSHIRE NOTES.

Married 65 Years

Notable Celebration of Mr. and Mrs. Joshua Hall at East Westmoreland Monday Mr. and Mrs. Joshua Hall of East West-

moreland, celebrated Monday their 65th wedding anniversary. Between the hours 10 A. M. and 3 P. M. they received congratulations of relatives and friends of West-moreland and Keene. The reception was entirely informal and without speech-mak-ing on account of the age of the couple. the groom being 94 in March next, and the bride upward of 82. A basket dinner was served at the village hall, and the couple made the recipients of numerous remem-brances. Mr. and Mrs. Hall were married brances. Jan. 1, 1835, at the home of the bride, near their present home, by Elder Moses Winchester, a famous preacher at that time, for many yeavs pastor of the Christian churchof East Westmoreland. Both are natives of East Westmoreland, and have ived the greater part of their long and happy married life at their present home, a comfortable cottage house, about one mile north of the village of East Westmoreland, on the main highway from the village to Westmoreland Depot and Walpole.

The couple have had four children, Jane Louisa, born Sept. 10, 1838, who married Aaron Graves of East Westmoreland, and who died in 1878; William A. Graves of East Westmoreland, Wallace E. Graves of Leominster, Mass., and Miss Berths L. Graves of Taunton, Mass., are her surviving children. William J. Hall, born April 24, children. William J. Hall, born April 24, 1840, is the undertaker of Walpole. He has one daughter, Inez, the wife of Edward H. Chapin of Leominster, Mass., who has three children, two daughters and one son. Mary Eveline, born March 5, 1854, died in 1873, not having married. Lizzie Charlotte, born Jan. 16, 1857, who did not marry, died in 1881, after an illness of seven

yeaas.

Mr. Hall says his four grandchildren and three great-grandchildren do not compare very favorably in numbers with his grandfather's progeny, the latter having 62 grandchildren and a host of great-grandchildren. Mr. Hall well remembers the circumstances surrounding the drafting of troops for the war of 1812, and tells many humorous anecdotes concerning that

Moody No Faith Curist. [From the Medical Record.]

Dwight L. Moody, who died last week offered a gratifying contrast to many of his cloth, especially revivalists, in his ap-preciation of regular medicine and his antipathy to quacks. In speaking of a prom-inent Christian Scientist, or faith healer, or what-not, in Chicago, whose offences against humanity and common sense are many and notorious, he praised medicine as the noblest of professions after that of the ministry. "Never yet," he said, "in all my years of work have I called upon an all my years of work have I called upon an able doctor, telling him of the sickness and need of some poor friendless person, that he did not at once go to the rescue, without money and without price. Some of the noblest men I ever knew have gone out as medical missionaries, devoting their lives to doing good with the skill and the healing medicines the Lord has conferred

out as medical missionaries, devoting their lives to doing good with the skill and the healing medicines the Lord has conferred upon them." "These are the men," he continued, "who are called devils by the faith healers," but he prayed God to forgive those guilty of such slander.

"God heals," he said, "through doctors and through medicines. Do not be carried away through ravings of fanaticism. We have a new 'ism' in America about every year—beware of the 'isms!" What would I do if I fell sick!" Get the best doctor in Chicago, trust to him and trust to the Lord to work through him. The doctors have done wonders as their knowledge has grown; they have reduced the dangers of death from diseases that once slew all they touched; and the doctors, if God helps them, will yet find a way to stop the raverse. God helps them, will yet find a way to stop the ravages of other terrors."

The University of Chicago received a New Year's gift of \$3,370,000. The president hoped to announce that the university should be \$4,000,000 richer, but has not been able to raise the \$315,000 which, duplicated by John D. Booksfaller, would licated by John D. Rockefeller, would make up that amount. Mr. Rockefeller has extended the time three months, however, and President Harper expects to raise the amount within that time.

VERMONT NEWS.

Fenian Invasion Threatened.

Report in Burlington That Arms and Supplies Are Being Stored Near the Vermont and Maine Boundary Lines. Reports received at Burlington from persons in Massachusetts say that the Fenians

are engaged in storing quantities of dynamite, lyddite, ammunition and supplies in a few selected repositories in re-mote rural districts of Vermont and Maine near the Canadian boundary line. There is knowledge of the purchase of some of the supplies and their transportation by

railroad disguised as groceries.

Dynamite and lyddite have been secured in surprisingly large quantities and stored underground in a number of masked excavations and caves on the Vermont border, while great quantities of canned meats have been hidden in some large barns of sympathizing farmers on the Maine line near New Hampshire. It is said that a large and effcient ambulance corps is being organized under the supervision of a few loyal Irish women and surgeons, who were in the Red Cross work in Cubs. They are also preparing a large number of

'first aid' packages for the invading force.
A feature of the campaign plans, which has escaped notice heretofore, is one which is being looked out for in the farming districts of New England. The general supposition of course is that the movement is the work of the Irish in the larger cities of the country, but it is a fact that a large and important work is being done among the farmers of the border states. A schedule is being arranged of farmers who can furnish wagons and horses and oxen for transportation purposes, as this is re-garded as a most important detail.—[Special despatch from Burlington to the Springfield Republican.

\$25,000 for Allenating Affections.

Papers have been served on Mrs. Lillian Campbell of Fishkill, N. Y., for alienation of affections. The plaintiff is Mrs. Anton J. Prunier of Burlington, and she asks for \$25,000 as salve for her wounded feelings and loss of a husband. Prunier is private secretary to Mrs. Campbell, who is the widow of William Campbell, the wall paper man of New York. Prunier was formerly a nurse, and cared for Mr. Campbell in his last illness. He is 32 years old. Last month Prunier was arrested on requisition papers from Vermont. He appealed to Governor Roosevelt and that off leased him on the ground that, as Prunier contends, it was a subterfuge to get him into Vermont, when his wife would have him arrested for non-support. A number of former servants of Mrs. Campbell have been subpostated. The suit will be heard in New York next month. Mrs. Campbeil's wealth is estimated at \$2,000,006. At present she is living in her winter apartments in New York.

Israel Boleo's house was burned at Swanton Friday night, and a large part of the furniture was destroyed or damaged.

L H. McIntyre is arranging to build a fine new opera house in Rutland on Centre street, a little below the Berwick

The wife of O. C. Watts committed sui cide Sunday by taking paris green at her home on the Stowe road near Waterbury Centre. It is reported that she had been demented some time.

George Tyler, 64, of West Newbury, was instantly killed Saturday by being thrown from a wagon. He lost his right arm in a similar accident several years ago.

Dr. W. B. Mayo's building, occupied by W. H. Mansfield, jeweler, and Wm. Shed-ding, dealer in books, music and confectionery, and the telephone office was burn-ed Monday night. The loss on the building was \$1000, and the occupants sustained a loss of \$2500. All were insured. An adjoining building owned by Dr. Mayo was damaged.

The necessity for the law forbidding the importation of cattle into Vermont without a p rmit was illustrated recently, says the White River Junction Landmark. Two officers of the cattle commission went from here to Norwich to inspect a cow that had recently been smuggled into that town. The animal was killed and a post mortem examination showed that the creature was badly infected with tuberculosis. One animal illegally brought into a neighborhood may be the means of infecting others with this disease whose consequences are so dis

Verment Personals.

Rev. C. O. Judkins, pastor of the Metho dist church at Montpelier, has received a call to the pastorate of the First Congrega-tional church at Burlington at a salary of \$3000 a year, to fill the vacancy caused by the resignation of Rev. Dr. Edward Hawes. Mr. Judkins's loyalty to Methodism has led him to decide not to revise his theology and he has declined the call.

Rev. Frank L. Goodspeed, pastor of the First Congregational church of Springfield, Mass., received on Christmas morning an envelope containing \$1000, contributed by envelope containing \$1000, contributed by ten of his parishioners. Mr. Goodspeed leaves soon for a journey to the Holy Land. He is well remembered in Montpelier and vicinity. He is a native of Warren, and graduated from Montpelier seminary about 12 years ago. During his course of study at the seminary he supplied the pulpits at West Berlin and other adjacent villages. West Berlin and other adjacent villages.

Gen. B. E. Cook, who celebrated his 96th anniversary at Northampton Sunday, is a native of Hyde Park. His ancestors fought in the Indian and Revolutionary wars, and his father was a Revolutionary patriot. When a youth Gen. Cook was lieutenant of a military company at Hudson, N. Y. He gained his title as general while in command of a brigade in the Massachusetts militia. Gen. Cook is the oldest jeweler in waler. militia. Gen. Cook is the oldest jeweler in Massachusetts. He has raised a family of three sons and seven daughters. One son was the first mayor of Northampton, and another son, Capt. F. A. Cook of the United States navy, commanded the Brooklyn in the Spanish-American war.

Spain's Sunken Ships Floated.

Perhaps the greatest mechanical feat of the century has been the raising of some of the Spynish warships which were apparently shot to pieces at Santiago. It seemed as though it was utterly impossible to float them because of the terrible damage inflicted by our guns, but the task has been accomplished nevertheless. Diseases of the blood, stomach, liver and kidneys frequently wreck the health in a similar manner, so that there appears to be no chance of re-covery. But when Hostetter's Stomach Hitters are taken, the disordered system is speedily restored to its old-time vigor and tone. This has been the result times without number. The Bit-ters will regulate the liver, bowels, and digestive unctions, purify the blood, and will fill the veins with rich red life fluid. You can buy this remedy in any drug store, and under no circumstances should you accept anything said to be "just as

Everybody Says So.
